

# **Touch Switch Using IC CD 4011-** **VERILOG CODE**

**A Special Assignment Submitted In The Partial  
Fulfilment Of**

**Bachelor Of Engineering Present By**

**Darshil Mavadiya- 22BEC508**

**Krishna Pandya- 22BEC511**

**ITNU-NIRMA UNIVERSITY, AHMEDABAD**

## **Touch Switch Using IC CD 4011-VERILOG CODE:**

```
module touch_switch(touch,remove,clk, ledon, ledoff);
```

```
input touch,remove,clk;
```

```
output reg ledon, ledoff;
```

```
always@(posedge clk)
```

```
begin
```

```
if(touch == 1)
```

```
begin
```

```
ledon = 1;
```

```
ledoff = 0;
```

```
end
```

```
else if(remove == 1)
```

```
begin
```

```
ledon = 0;
```

```
ledoff =1;
```

```
end
```

```
else if(touch == 0 & remove == 0)
```

```
begin
```

```
ledon <= ledon;
```

```
ledoff <= ledoff;
```

```
end
```

```
end
```

```
endmodule
```
